

**Selecta one** is a world-leader in breeding, producing and marketing of vegetatively propagated ornamental plants. Our breeding activities include bedding and balcony plants, pot plants, perennials and cut flowers. With fifteen breeding, production and distribution sites the corporate group serves all the relevant markets worldwide.

For the summer semester 2021 we offer at our headquarters in Stuttgart an internship as

## **Intern (m/f/x) Trial management with option for a bachelor or master thesis**

### **Your tasks:**

- Support the Field Research Manager in the planning, implementation, evaluation and documentation of trials within the production process
- Research on trial-relevant topics
- Supervision of an own trial or project

### **Your qualifications:**

- Student in horticulture, agronomy or comparable (depending on the study focus possibly also biology, bio- or nanotechnology)
- Fluent in German and a good command of the English language (written and spoken)
- Good knowledge of MS Office
- Structured, precise and independent working method
- Team spirit and a communicative manner

### **We offer:**

- Interesting internship in an international team
- Option for a bachelor or master thesis in trial management
- Good prospects for a future employment in a growing, internationally successful, family-owned company

### **Are you interested in this internship?**
