

Selecta one is a world-leader in breeding, producing and marketing of vegetatively propagated ornamental plants. Our breeding activities include bedding and balcony plants, pot plants, perennials and cut flowers. With fifteen breeding, production and distribution sites the corporate group serves all the relevant markets worldwide.

Starting in February / March 2021, we offer at our headquarters in Stuttgart an internship in

Ornamental Plant Breeding with option for a bachelor or master thesis

Your tasks:

- Assistance in breeding programs
- Seed harvest, seed processing and germination
- Cultivation and evaluation of seedling progenies
- Cultivation of variety trials in greenhouse and outdoor
- Plant evaluation, data collection and data analysis

Your qualifications:

- Student in horticulture, agricultural science or comparable, preferred with a focus on Plant Breeding
- Academic knowledge and/or practical experience in plant breeding and plant cultivation
- Fluent in German and/or English (written and spoken)
- Good knowledge of MS Office
- Independent and well-structured working method, team spirit, commitment and a proactive manner
- Dedicated personality with a sense and passion for plants

We offer:

- Interesting internship in an international team
- Option for a bachelor or master thesis in plant breeding
- Good prospects for a future employment in a growing, internationally successful, family-owned company as breeder
