

Selecta one is a world-leader in breeding, producing and marketing of vegetatively propagated ornamental plants. Our breeding activities include bedding and balcony plants, pot plants, perennials and cut flowers. With eleven breeding, production and distribution sites the corporate group serves all relevant markets worldwide.

Our breeding department at Selecta Italia in Latina, Italy is offering the possibility for an

Internship in Ornamental plant Breeding (6-9 month)

Your tasks during the internship:

- Assistance in breeding programs
- Execution of plant polination
- Seed harvest, seed processing and germination
- Cultivation and selection of seedling progenies
- Cultivation of variety trials
- Plant evaluation and data collection

Your profile:

- Student in Horticultural Science, preferred with a focus on Plant Breeding
- Ideally a Bachelor degree in plant science or alternatively working experience in a plant breeding or plant production company
- Basic knowledge of plant breeding and plant cultivation
- Good communication in English and Italian language
- Good knowledge of MS Office
- Passion for plants

We offer:

- An interesting internship in an international team
- Possibility for a Bachelor as well as for a Master Thesis in plant breeding
- Good opportunities for a later employment as a plant breeder
